EDUCATION

Agile Project Management

Foundation and Practitioner Certificates

Four Day Course

OVERVIEW

This course covers how to manage projects in an Agile fashion within an overall project framework. Agile is accredited as a stable-mate to PRINCE2® and based on the DSDM Agile Project Framework approach.

Agile techniques such as eXtreme Programming, Scrum and Lean Software Development are becoming increasingly mainstream. They describe how to successfully deliver projects in complex situations, when requirements and possible solutions are subject to continuous change. However they also stop short of describing a full project lifecycle with defined phases.

The end result meets with your current customer need and is delivered with minimal cost, waste and time, enabling business to achieve bottom line gains earlier than many more traditional approaches.

KEY FEATURES:
- The basics of Agile Project Management
- Roles and responsibilities
- Preparing for an Agile project
- The factors that lead to success
- How to manage an Agile project
- Agile lifecycles
- Processes and products
- Communication in an Agile project
- Iterative development
- Prioritisation and TimeBoxing
- Maintaining control in an Agile project
- Managing risk
- Requirements and estimating
- Agile planning
- Building in quality

Exam Prep:
The Foundation exam is a closed book 1 hour test of knowledge, held at the end of Day 3. The Practitioner examination is 2 hours, open book at the end of the course. Pass marks are 50%.

AUDIENCE

The Agile Practitioners course is intended for anyone who needs a project management method which enables continual flexibility. Ideal for anyone involved with products or services, innovative or creative, where a flexible and fast approach is necessary.

OBJECTIVES

After completion of this course, delegates should be able to:

- Set up an Agile project
- Assign roles & responsibilities
- Create prioritised lists of requirements
- Define Increments & TimeBoxes
- Manage a Solution Development Team
- Use Agile Techniques
- Present the benefits of Agile approaches to senior management

PREREQUISITES

Delegates are expected to have some experience of project management, team leading, project assurance & support, or user management. This course is not aimed at delegates new to project management.
