

## ISO/IEC 27001:2013 Implementer

3 days

### OVERVIEW

The Implementer course is focused on developing the in-depth knowledge and skills required to implement and deliver an Information Security Management System (ISMS). It explains the key elements of ISO27001 accreditation and will enable the individual to understand how to fit the ISO 27001 framework into their organisation.

Delegates will study the practicalities involved when setting up a typical management system framework that conforms with ISO/IEC 27001:2013

#### Key Features:

- Interpreting the requirements of ISO 27001
- Defining the scope and criteria for accreditation
- Carrying out risk assessments
- Identifying the controls necessary to mitigate the risks
- Implementing controls and embedding them in the organisation.

*This course qualifies for 21 CPD credits.*

#### Exam details:

Day 3 includes a 90 minute multiple choice examination. This is delivered online.

Delegates will need to bring a "pop up" enabled laptop or tablet to the venue for the exam. Results are given immediately with certificates issued within 14 days.

### AUDIENCE

This course is designed for managers and team members involved with information security policies. Those who will be writing policy, introducing ISO27001 to their organisation or looking to expand the scope of an existing ISO 27001 accreditation.

### OBJECTIVES
